

THE CARENOTES® SYSTEM

The **CareNotes System** delivers a comprehensive suite of health topics as part of the **Micromedex® Healthcare Solutions**. Presented as fully customizable documents with images to enhance your patient's understanding, CareNotes helps educate your patients throughout the patient-care process.

With its intuitive, logical navigation, getting started with CareNotes is easy and it saves you valuable time, increases efficiency, and improves patient outcomes. And our free support gets your facility up and running with CareNotes and trains your clinicians.

PATIENT EDUCATION FOR EVERY CLINICIAN

Pharmacists

Help patients safely manage and better understand both their prescription and nonprescription medications with this full range of simple-to-comprehend patient information.

Nurses

Save valuable time with quick access to the educational documents your patients need. These customizable documents tailor your communication to patients, thereby improving meaningful patient-nurse interactions and ultimately moving your patients toward safer and healthier outcomes.

Physicians

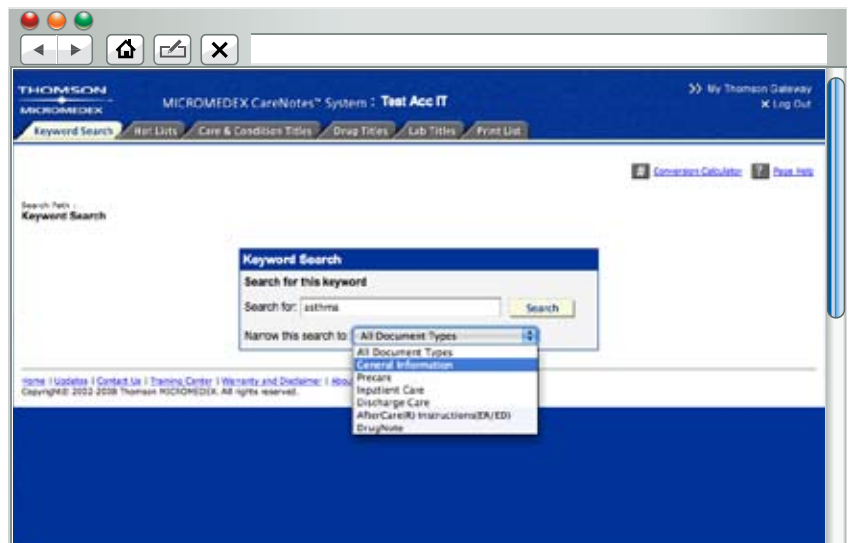

Customized, peer-reviewed documents equip you with patient-friendly educational information. You save time and your patients get information that enhances their understanding throughout every stage of care.

FEATURES

- Easy-to-navigate user interface
 - Enhanced print features
 - Page-specific help
- Integrated into the Micromedex Healthcare Solution
- 5,000+ evidence-based health and medication documents
- 400+ documents on frequently performed lab tests
- Unbiased, peer-reviewed content updated quarterly
- Written at a 6th- to 8th-grade reading level, in English and Spanish
- Includes color, 3-D images
- Adheres to The Joint Commission standards

BENEFITS

- Saves your clinicians time and your facility money
- Reinforces your brand by customizing documents with your facility's logo
- Empowers your patients to actively participate in their care

Documents span precare to discharge, empowering patients to participate at every stage.

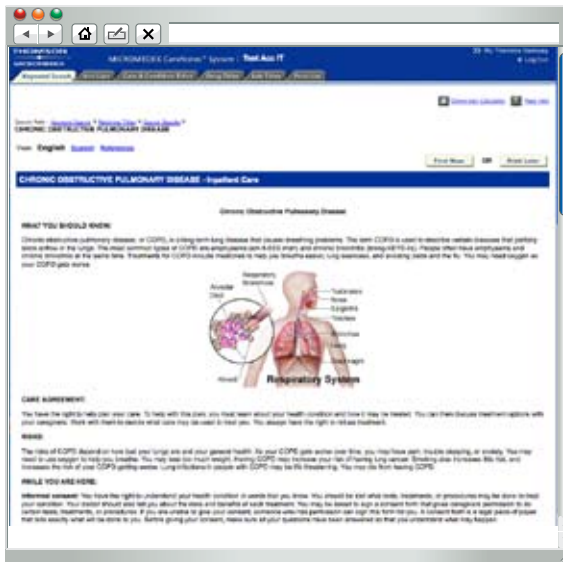

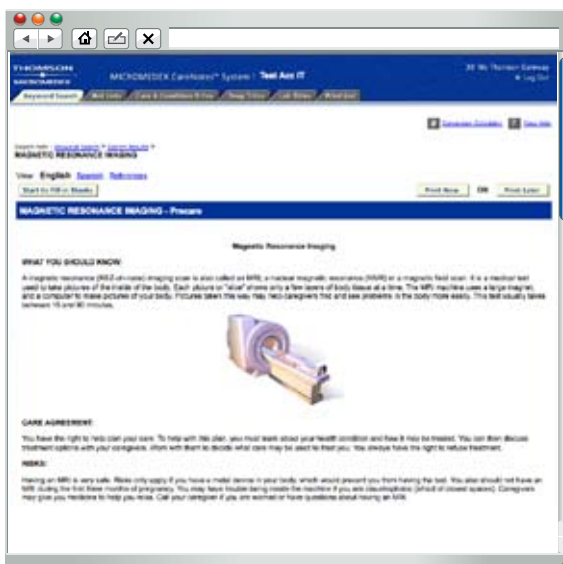

COMPREHENSIVE PATIENT EDUCATION DOCUMENTS

- General Information—health condition summaries
- Precare—preparation and preprocedure or presurgical information
- Inpatient—information about diagnostics, treatment, and processes during hospitalization
- Discharge Care—discharge instructions for a variety of health conditions
- AfterCare™—discharge documents for Emergency Department patients
- DrugNotes™—indications, contraindications, usage instructions, precautions, interactions, storage, disposal, and side effects for prescription and nonprescription drugs
- Lab Tests—reasons why a test is performed, what to expect, what the results mean, and more

ADDITIONAL FEATURES

- Flexible Print Features—specify how all of your printed documents will look from a single screen
- 3-D, Color Images—better communicate complicated health issues with patients by using more than 350 CareNotes documents with 3-D, color images
- Administrator Tool—for your in-house CareNotes manager to fully customize patient education documents

Fully customizable documents with 3-D and color images enhance your patient's understanding.
