

# RegsKnowledge<sup>®</sup> SYSTEM

The **RegsKnowledge System**, part of the **Micromedex<sup>®</sup> Corporate Solutions** suite of products from the Healthcare business of Thomson Reuters, delivers all of the latest U.S. and international regulatory data you need to answer your compliance questions.

## FULL RANGE OF PRODUCTS TO ASSIST A VARIETY OF PROFESSIONALS

### Regulatory Compliance Managers

The sheer volume of regulatory data, which is continually changing, makes maintaining a compliant workplace a monumental challenge. Simplify your compliance effort with access to the latest regulations in one convenient source.

### MSDS Managers

Preparing material safety data sheets requires a vast amount of supporting regulatory information. It can all be at your fingertips with the click of mouse.

### Product Stewards

Introducing a new chemical into the workplace always comes with a host of questions and concerns. RegsKnowledge helps product stewards clearly understand the chemical's impact and implement sound processes.

## CURRENT, COMPREHENSIVE, COMPLIANT

Access to up-to-date U.S. and international regulatory information helps you track the most current requirements and developments while effectively answering compliance demands. The RegsKnowledge databases help you ensure regulatory compliance, prepare MSDS, and protect both human health and the environment. By combining important regulatory resources with comprehensive chemical, hazard, environmental, medical, and drug information, you get a powerful compliance solution.

## BENEFITS

- Helps manage the ever-growing amount of regulatory data
- Provides quick answers to compliance concerns in one convenient source
- Instills confidence with a resource unequaled by any other

## FEATURES

- Daily updates to the Federal Register
- Covers all 50 states; Washington, D.C.; and Puerto Rico, updated monthly
- 17 key CFR titles, updated monthly
- 1,300+ regulatory lists
- Searches all regulations with a single query
- Table-of-contents searching
- Available via Internet

### RegsLink<sup>®</sup>

RegsLink combines federal and state regulations (including all states and Puerto Rico) in a single convenient resource. You can quickly search the Federal Register, 17 of the most frequently used CFRs (7, 9, 10, 15, 18, 21, 29, 30, 33, 40, 42, 43, 45, 46, 47, 49, and 50), and state regulations with a single query. Having all of this together distinguishes RegsLink as the most efficient tool available. With it, you can ensure all regulations regarding the handling, transportation, and management of chemicals are successfully met.

### LOLI<sup>®</sup>: The Regulated Chemicals List of Lists

Your in-depth view of U.S. and international regulatory standards and requirements is a quick search away. LOLI presents thousands of easily searchable chemical records, containing information from environmental, international, and state regulations as well as select proposed regulatory lists. When you enter a CAS number, substance name, or synonym, every list on which a chemical appears is instantly identified. You can also view a complete list of chemicals for any list you select.

## LOLI Global Inventories™

Details on the local level are important, but with your increasingly global presence, you need international regulatory information. Whether you produce, manage, or ship chemicals internationally, this one source provides the global perspective you need to effectively do your job. LOLI Global Inventories contains a wealth of international inventory lists including Australia, Canada, China, the European Union, Japan, Korea, the Philippines, the UK, and more.

## FREE-TEXT SEARCH

Search by single term, phrase, or citation within all the RegsLink databases, or you can choose specific databases in which to conduct a search. And if you frequently need to perform the same search, you can avoid retyping terms by saving your past searches.

## INTEGRATED INDEX® SEARCH

Using the Integrated Index, you can simultaneously search both LOLI and LOLI Global Inventories through a single screen. You can also enter a specific regulatory citation to access the state and federal regulations found in RegsLink.

## EASY-TO-INTERPRET RESULTS

Your search yields a list of all lists containing your chemical. Clicking on the list name from the left column gives you background and reference information about that list. You can also quickly link to a full list of all the chemicals appearing within that list.

## HELP/TRAINING

User guides and online sessions highlight effective search strategies and other useful features that help staff quickly find the information they need.
